

Pimoroni Blink! for Raspberry Pi

PRODUCT ID: 3195

. Description

Snap the Pimoroni **Blink!** on top of a Raspberry Pi Zero, or any Raspberry Pi with a 2x20 connector, for a fun 1x8 RGB LED matrix powered directly from the Pi.

The Blink! provides a wash or controllable color that is ideal for mood-lighting, 1x8 pixel art, persistence of vision effects, status indications, or just blasting color into your surroundings.

Each pixel is individually controllable and dim-able allowing you to create gradients, pulsing effects, or just flash them on and off like crazy.

Features:

- Eight APA102 RGB LEDs
- Individually controllable pixels
- Bright and shiny!
- Sits directly on top of your Pi in a tiny footprint
- Fits inside most Pi cases
- Comes fully assembled
