## Technical Data Sheet

**TDS CC50**

### Chamois Tips™

#### PRODUCT DESCRIPTION

Chemtronics® **Chamois Tips™** are constructed from a lint-free synthetic chamois cloth material. The chamois cloth is bonded to an ABS swab handle without potentially contaminating adhesives or glues. These swabs are ideal for cleaning and polishing magnetic and optical, audio and video heads.

- Material is free of oils and residues
- Can be used with solvents for tough soils
- Flexible handle bends to clean hard-to-reach areas
- Bonded without adhesives or glues
- Seamless construction; does not scratch surfaces

#### TYPICAL APPLICATIONS

Chemtronics® **Chamois Tips™** can be used to:

- Clean magnetic and optical heads
- Restore VCR and camcorder recording quality
- Remove contamination from Disk Drives
- Critical cleaning of optical pick-up assemblies on CD, CDROM and laser disc players
- Micro Mechanical Cleaning
- Effectively cleans excess ink from ink jet cartridges
- Clean wet using Chemtronics Head Cleaner™ II

#### COMPATIBILITY

**Chamois Tips™ Swabs** are compatible with most common solvents such as isopropyl alcohol and methanol. Not recommended for use with ketones such as acetone or methyl ethyl ketone.

#### AVAILABILITY

**Chamois Tips™** **CC50**  
3.25" swab with 0.38" x 0.88" head  
50 swabs / bag

For use with:

**IPA**  
ES820L 8 fl oz bottle  
ES3205 32 fl oz bottle

#### DIRECTIONS FOR USE

##### VCR Video/Audio Cleaning

Position the video head to permit access for cleaning. Hold upper cylinder to prevent turning while cleaning. Saturate Chamois Tips™ with Head Cleaner™ II and gently rub the head in the direction of tape travel until contaminants are removed. Repeat procedure for remaining heads. Do not rub vertically or apply any pressure to the tape head.

#### TECHNICAL AND APPLICATION ASSISTANCE

Chemtronics provides a technical hotline to answer your technical and application related questions. The toll free number is: **1-800-TECH-401**.
